

OUTSKILL ELEVATE

AI-Powered Sales Intelligence & Consultative Selling Platform

Project Overview

Outskill Elevate is an AI-powered sales enablement platform designed to help sales professionals conduct **smarter, faster, and more personalised sales conversations**.

Key Objectives

The platform helps sales professionals **understand prospects, identify pain points and AI opportunities, gain industry insights, and create personalised pitches** for a more effective consultative sales approach.

Key Features

- **Prospect Profiling:** Understands role and professional background.
- **AI Opportunities:** Identifies relevant AI use cases.
- **Pain Points:** Highlights key business challenges.
- **Startup Insights:** Provides relevant industry startups.
- **Pitch Assistant:** Generates personalised sales talking points.
- **AI Tool Stack:** Offers relevant tools and learning resources.

Sales Approach

Prospect → Pain Point → AI Opportunity → Solution → Personalised Pitch

Helps sales professionals **understand customer needs and deliver relevant, value-driven solutions**.

Target Users

- Inside Sales Executives
- Business Development Representatives
- Sales Development Representatives
- Account Executives
- AI Solution Consultants
- B2B Sales Teams

Key Benefits

Outskill Elevate enables **faster prospect research, personalised sales pitches, better understanding of customer needs, improved call preparation, greater sales confidence, and stronger consultative selling**.
